

DevOps Gadgets

Brings key devops insights to your Jira dashboards

Product Description

DevOps Gadgets is a powerful Jira app that brings key development insights from your Bitbucket Cloud or GitHub repositories directly to your Jira dashboards. It provides essential gadgets to help teams stay on top of their DevOps processes.

Localized in EN, ES, PT, FR, DE and RO.
Dark theme compatible.

Product Features

- Integrates with Bitbucket Cloud and GitHub
- View the latest code commits, including author details and commit messages, directly in Jira
- Track ongoing and completed CI/CD pipelines with real-time status updates
- Keep an eye on open, merged, and closed pull requests
- Get instant visibility into the most recent build results

Latest Build Status

SUCCESSFUL

Build number	#8823
Branch	hotfix/critical-bug
Started by	Jim Thompson
Started	30 minutes ago
Duration	29m 50s
Commit	71366e7
Commit message	Add new feature: Dark Mode

Recent Pull Requests
